GLTS ORGANOGRAM

14

***This organogram is
changeable depending
on necessity

Purpose of The Name of GLTS

Global: To connect internationally and learn from Diversity.

Global connections help in exchanging knowledge, ideas, skills, culture and life. The more we know each other the more we understand the necessity of unity. When we are united we grow.

Law: To aware people about their rights and value.

When we know rights and our value then we also know the rights and value of others. Thus, we are able to raise voice against violation of rights and can establish rights. An aware person understands and establish peace.

Thinkers: To build problem solver think tank .

Thinking the right thought is important to be a better human being. World is full of problems and negativity. So we are creating problem solvers, critical thinkers and positive spirits. And thus we will be able to establish a better world.

Society: To build a global and decentral community under one platform.

We develop and empower people. They become proactive citizens and leaders. They will have decentral as well as global leadership and ability to work for building a better community. They will inspire world through their actions and activities.

STORY OF FORMATION OF GLTS

16

Founders Raoman Smita and Ahsanul Alam John always thought for the society, children and young people welfare. They couldn't tolerate all children are not getting a happy life that they deserve. They were worried for social imbalance.

They thought if they can help children and young to be positive and empowered human being then these problems will solve automatically. They united and started working to bring positive mindset in young people so they all together can work building a happy and healthy world. They started activities for children and young people from September 2010. Inspired by their activities, their friends and relatives Khaled Masud Majumder, Jasmine Akter, Ekramul Islam, Sufi Al Mamun, Tousif Gaddafi Don, Shuvechchha Ahmed Kawtha, and Shirin Sultana joined their hands. They started impacting in young and adults. Later in 2016, GLTS completed the registration process and take it to international level. It operated simultaneously with various international organizations in different countries of the world. In 2019, they organized 2nd South-Asian Youth Conference where 29 countries participated. Since then they never stopped and In 2020 they made it to "World Book of Records UK" by hosting the largest-longest online conference of young leaders from 100 countries.

"GLTS" seeks to establish an international family, where everyone help each other, work for growth and bring positive change in society. GLTS is building positive thought process in leaders through their activities. It united the global youth to protect the rights of all species. "Global Law Thinkers Society" is designed to expand the scope of thinking of all aged people internationally, and then they can take appropriate actions and will be able to build a peaceful world.
